

Anjay's Kids
A CROWN FOR KIDS
AFFECTED BY CANCER

WE EXIST TO HELP THE CHILDREN OF KENTUCKY MAINTAIN THEIR SENSE OF PRIDE AND SELF CONFIDENCE BY PROVIDING FREE CUSTOMIZED HAIR REPLACEMENT FOR KIDS WHO HAVE SUFFERED HAIR LOSS DUE TO CANCER OR OTHER LIFE CHANGING EVENTS.

When I was 19, I was diagnosed with a cancerous brain tumor. Due to the radiation treatments I received after surgery, I lost a major portion of my hair. For me this was the hardest part to come to terms with and was devastating. When I asked my doctor for solutions to fix this problem the only options he was able to offer me looked fake and not natural. Fortunately after doing a lot of research I found Angela at Imagine That Salon. Angela was able to take measurements of my head and fit me with a custom hair piece that matched my hair and looked natural. I visited Angela for the next two years to have my hair piece adjusted and cut as my hair began to re-grow to maintain a natural look. Angela was extremely sensitive and supportive throughout the two years I wore a hair piece. Angela and Imagine That Salon were able to give me confidence throughout my cancer treatment by giving me a natural looking appearance that allowed me to maintain a normal life.
~ Lexie B. - Lexington, Ky.

After meeting in 2011, Angie & Jay Ballard quickly realized that they shared the passion of helping others.

Angie has been a hairdresser since 1994 and has helped many hair replacement clients live normal lives after suffering from hair loss. Jay has worked in the medical field since 1994 as a Radiologic Technologist and Registered Nurse. Over the years Jay developed a strong passion for helping oncology patients control their pain during the progression of their disease.

Together, Angie & Jay started a not for profit organization that fulfills both of their passions.

Money collected by Anjay's Kids will be used to operate the organization and to purchase hair replacement products for the children suffering from hair loss.
